Work History

We're Not Really Strangers

04/2022 - 01/2025

Senior Designer

Designed brand-aligned digital experiences across web, email, and social for a 10M+ audience

Developed and scaled high-performing email campaigns (900K+ subscribers, 13% CTR) using Klaviyo

Art directed photoshoots and product storytelling across platforms

Contributed to creative strategy for product launches, campaigns, and site refreshes

Maintained visual consistency while evolving brand design through A/B testing and iteration

MuteSix

06/2020 - 04/2022

Senior Digital Design Manager

Managed a team of 5 designers at a performance agency serving 300+ clients

Produced weekly GTM sales/ marketing collateral and scalable presentation templates

Designed custom pitch decks tailored to individual client brands

Designed a reusable web component library in collaboration with developers

Trained team and migrated sales content into a scalable online system

Social Native

08/2018 - 03/2020

Graphic Designer

Designed brand visuals and maintained consistency across web and print

Created digital marketing assets, whitepapers, and event signage for B2B campaigns

Directed freelancers on video and photo projects

Echo (Personal Project)

2025

Designer/Developer

Designing and building a web app using Supabase, JavaScript, and React for anonymous one-to-one exchange

Focused on front-end engineering and component-based architecture

Piggy (Personal Project)

09/2024 - 10/2024

UX Designer

Designed a collaborative budgeting app, part of a personal effort to deepen product design skills.

Conducted user research, mapped flows, built a component library, and ran usability studies.
